

Crimping Tool

REMOTE HTR SERIES

13-14 Ton

10,000 psi

Remote single-acting hydraulic tool is precision engineered for compression connectors on electrical conductors.

REMOTE COMPRESSION TOOLS FOR U- OR SHELL-TYPE DIES

- Compact, lightweight design for reaching tight places
- Capacity for all U- or shell-type dies
- Push-button system for ease of die insertion and removal
- Pressure matched quick-coupler supplied
- 6,000 psi model available; consult Power Team for details
- With Carrying Case

HYDRAULIC TOOLS

| Tool Model | Crimping Force U.S. tons | Operating Pressure psi | Crimping Capacity MCM | Overall Length in. | Overall Depth in. | Head Width in. | Tool Weight lbs. |
|------------------|-----------------------------|---------------------------|--------------------------|-----------------------|----------------------|-------------------|---------------------|
| C12-HTR-C | 13.1 | 10,000 | see below | 11.65 | 3.0 | 5.12 | 10.3 |
| C14-HTR-C | 14.5 | 10,000 | 750 | 12.54 | 3.1 | 5.02 | 13.1 |

| Copper | C12-HTR Crimping Capacity Aluminum | ASCR |
|--|--|---|
| No. 8 stranded through 500 MCM grounding terminals and splices | No. 8 stranded through 750 MCM terminals | No. 6 stranded through 556.5 26/7 stranding |
| No. 8 stranded through 250 MCM grounding taps and 3/4" ground rod | No. 8 stranded through 350 MCM splices | |
| No. 8 stranded through 750 MCM insulated and uninsulated terminals | | |
